Next SCHABHC Meeting	10/31/2018 1000 Center Point Road in Columbia, S.C.	Minutes by Amanda Gilchrist/ Tiffany Brown

Updates

The group collectively decided that we should have two working documents:

- Service Array (options): Communities can decide which services would be beneficial based on area needs and resources and implement in their communities.
- Resource Mapping: Stabilization workgroup members will come together to share all behavioral health resources related to crisis stabilization and a comprehensive listing will be developed of the state's current resources related to crisis stabilization.

Next Steps

Service Array document and Resource Mapping Document to be shared with the group so that member can begin adding additional service options and resources to these documents.
